

Did you know...

You can call 911 for a "Lift Assist". What is a lift assist? Let's say you fall in the bathroom and can't get up on your own or your neighbor falls outside while doing yard work and can't get up on their own. Maybe you or a loved one is coming home from the hospital and needs help getting from the car into the house.

When you call 911 for a "Lift Assist", your Bear Lake Twp. Fire Dept. as well as an ambulance gets dispatched to your location. However, after assessment, if the ambulance is not needed, your Fire Dept. First Responder will cancel them. The ambulance is *always* dispatched as a precautionary measure.

There is **NO CHARGE** unless you get transported via ambulance. Your Bear Lake Twp. Fire Dept. is ready to help when you need us.
